

NOTES: UNLESS OTHERWISE SPECIFIED.

Description:

OCC's new shallow modular enclosure is highly configurable and designed to terminate SMPTE 311 and other commonly used connections on the front panel. Works with either of OCC's 8x8 or 6x6 adaptor panels. These unique reversible front panels can angle outward when space is at a premium inside the enclosure, or the panel can angle inward to buy precious space in front of the panel (for example, when the rack has a door above it that must close). Cable entry/exit is provide in the rear and sides.

Features:

- Removable Front 2RU panel for ease of access when installing and repair
- Ground is fully isolated
- Cabinet constructed of 16 gauge steel with a black powder coat finish (top access is 18 gauge steel)
- Rear cable entry with full cable management
- Removable top access panel
- May be ordered pre-terminated for plug and play operability
- Isolation plate are available for Canare/LEMO SMPTE as well as Neutrik Opticon Duo and Quad
- 8x8 or 6x6 versions available

SIX-PORT PANEL
OPTION

WITH COVER

Specifications:

Overall dimensions: 19"w X 3.5"h X 4"d including 35 degree angled removable front panel which can be mounted inward or outward

Includes:

Cabinet, top access panel, front panel, rack mounting screw

Options:

Cabinet may be configured and ordered pre-populated with Canare or Lemo, male or female SMPTE connectors as well as Neutrik opticon Duo or quad

Various isolation plates may be ordered separately or included internally for field assembly (all required hardware included)
