## ZONE DISTRIBUTION ENCLOSURE

### Overview:

OCC's new ZDMB6B offers a compact and reliable patch and splice fiber optic enclosure ideal for:

- Telecommunication rooms, enclosures & cabinets
- Traffic control and industrial cabinets
- Indoor wall mount applications
- Zone distribution applications
- Any small space where real estate for cross connect applications is a premium.

This small enclosure accepts all OCC fiber optic adapter plates and provides splicing options for up to 12 fibers. The ZDMB6B is an affordable solution that provides easy installations and customizable configurations.

### Features & Benefits:

- Cost effective for small fiber optic applications
- Can be used for both splicing and patching applications
- Cable entry grommets help protect fiber optic cable from dust and debris
- Fiber management clips are included for fiber storage
- MTP compatible for zone applications
- Lockable for secure access
- Low profile design is less than 2" including the plunger and lock tab
- Accepts one OCC fiber optic adapter plate
